

Park Insoo

Undergraduate Researcher in AI for Science · School of Transdisciplinary Innovations, Seoul National University

pe7ace@snu.ac.kr · GitHub · LinkedIn · Seoul, Republic of Korea

RESEARCH INTERESTS

AI for Science · Computational Drug Discovery · Molecular Docking · De Novo Drug Design · Medical Artificial Intelligence

EDUCATION

Seoul National University

Mar 2024 - Present

Undergraduate Student, School of Transdisciplinary Innovations

- Major in Digital Healthcare; minors in Innovative Pharmaceutical Sciences and Intelligent Semiconductor System

RESEARCH EXPERIENCE

Artificial Intelligence & Biomedical Informatics Lab (AIBL)

Jan 2025 - Present

Internship Researcher | Seoul National University

- Researching learning-based approaches to structure-based drug discovery, with emphasis on molecular docking models and de novo molecular design.
- Advisor: Prof. Kyungsu Kim.

Medical Vision Lab

Jun 2026 - Aug 2026

Research Intern | Seoul National University Hospital

- Participated in a short-term medical vision project involving the evaluation and analysis of AI models for CXR images.
- Advisor: Prof. Young-Gon Kim.

SELECTED PROJECT

Empirical Verification of Benford's Law

2024

Computational data analysis project

- Conducted a computational study examining when empirical numerical datasets conform to Benford's Law.
- Presented the work at the 3rd SNU Computing Project Competition and received the Audience Choice Award.

TECHNICAL EXPERIENCE

Programming and Research Computing: Python, C++, Linux, Git

Machine Learning and Scientific Computing: PyTorch, NumPy, pandas, scikit-learn

Computational Structural Biology: GROMACS, PyRosetta, PyMOL, AlphaFold 3, CHARMM-GUI

HONORS & SCHOLARSHIPS

Academic Excellence - First Place (1st of 29), Data Mining and Machine Learning	School of Transdisciplinary Innovations, Seoul National University	Spring 2026
National Scholarship for Science and Engineering	Korea Student Aid Foundation	Jun 2026
AI & ICT Scholarship	Moonju Scholarship Foundation; selected for three terms	2025 - 2026
Semiconductor Specialized University Scholarship, 3rd Cohort	Seoul National University	Dec 2025
Honorable Mention, School Mascot AI Video Competition	School of Transdisciplinary Innovations, Seoul National University	Oct 2025
Excellence Award, Career Design Thinking PBL Final Presentation	People Lab, Seoul National University	Dec 2024
Audience Choice Award, 3rd SNU Computing Project Competition	SNU Institute for General Education	Sep 2024

TEACHING & ACADEMIC LEADERSHIP

Vice Representative	Fall 2026
Digital Healthcare Major, School of Transdisciplinary Innovations	
• Serving as vice representative for the Fall 2026 semester, supporting student communication and major-level coordination.	
Academic Sharing Team Lead	Jul 2026 - Present
TI:um, Student-Led Academic Community	
• Leading academic-sharing initiatives and supporting interdisciplinary scholarly exchange among students. Member since April 2026.	
Vice President (formerly President)	Mar 2025 - Present
TINNIS, School Tennis Club	
• Served as president from March 2025 to February 2026 and as vice president from March 2026, with reappointment for the Fall 2026 semester.	
Culture and Communications Staff	Dec 2024 - Nov 2025
64th SNU Student Council, SIGNAL	
• Contributed to campus cultural programming and student-facing communications.	
Mathematics 1 Tutor	Mar - Jun 2025
SNU Basic Mathematics Program	
• Supported undergraduate students in developing foundational mathematical understanding and problem-solving skills.	

SELECTED ACADEMIC & PUBLIC ENGAGEMENT

Seminar Speaker, Can AI Do Science? The Present and Future of AI for Science - TI:um 6th Regular Academic Seminar	Jun 2026
Participant, SNU Medical AI Convergence Talent Development Program	Apr 2026 - Present
Content Contributor, 2025 SNU Major Guide - Digital Healthcare	Apr - May 2025
Panel Participant, 2024 Future Generation Next-Wave Summit	Nov 2024
